

Fareha Sameet

SENIOR FRONTEND ENGINEER | VUE.JS | REACT.JS | JAVASCRIPT

Raipur, India | +91-9827930925 | alvifareha04@gmail.com | fareha.sameet@outlook.com

PROFESSIONAL SUMMARY

Senior Frontend Developer with 9 years of experience building scalable, responsive enterprise web applications using Vue.js, React.js and JavaScript. Strong hands-on experience in Vue 3, Pinia, Vuex, Redux Toolkit, REST APIs, frontend architecture, performance optimization, automated testing and CI/CD. Experienced in leading frontend delivery, code reviews, legacy modernization and AngularJS-to-Vue.js migration, with project experience in enterprise banking environments.

TECHNICAL SKILLS

Frontend: Vue.js, Vue 3, Composition API, Options API, React.js, JavaScript ES6+, TypeScript, HTML5, CSS3, Responsive Design

State Management: Pinia, Vuex, Redux Toolkit

UI & Styling: PrimeVue, Tailwind CSS, Bootstrap, Flexbox

APIs & Architecture: REST APIs, API Integration, Microservices, JWT, OIDC, i18n, Modular Architecture

Testing & Quality: Jest, React Testing Library, Jasmine, Karma, SonarQube, ESLint

Build & DevOps: Vite, Webpack, Azure DevOps, Azure Repos, Azure Pipelines, Jenkins, Nexus

Engineering: Frontend Architecture, Reusable Components, OOP, SRP, Performance Optimization, Agile/Scrum

PROFESSIONAL EXPERIENCE

Tata Consultancy Services — Senior Frontend Developer / IT Analyst

Jan 2024 – Present | Gurugram / Mumbai, India

- Led a cross-functional team of 5 developers in designing and delivering an enterprise Vue.js application using Vue.js and PrimeVue.
- Owned frontend delivery including technical design, task allocation, code reviews, implementation and release coordination.
- Designed reusable and modular frontend components following SRP, OOP and maintainability principles.
- Implemented Jest-based automated testing with 90% unit-test coverage and zero critical SonarQube issues.
- Managed frontend CI/CD deployments through Azure DevOps, Azure Repos and Azure Pipelines in collaboration with DevOps teams.
- Collaborated with business, backend, QA and DevOps teams to deliver features within Agile/Scrum sprints.

Tata Consultancy Services — IT Analyst

Jan 2023 – Jan 2024 | Gurugram / Mumbai, India

- Developed an enterprise Automation Marketplace application using Vue.js and PrimeVue.
- Implemented Pinia for centralized state management and lazy loading, improving application performance by approximately 30%.
- Built reusable components and modular frontend architecture to improve maintainability and scalability.
- Integrated REST APIs and handled asynchronous application state and user interactions.
- Implemented Jest unit testing with 90% coverage and maintained code quality through SonarQube.
- Managed application deployments using Azure Pipelines and Azure Repos.

Tata Consultancy Services — IT Analyst — ABN AMRO Bank

Jun 2021 – Dec 2022 | Gurugram, India

- Developed modern, responsive banking application interfaces using Vue.js.
- Migrated legacy AngularJS applications to Vue.js, implementing Vuex, reusable components, custom filters and mixins.
- Developed and integrated REST APIs using Java 8/JAX-RS with enterprise backend services.
- Implemented automated unit testing using Jest, achieving 80%+ test coverage.
- Supported enterprise application deployments through Azure Pipelines with focus on reliability and maintainability.

PROFESSIONAL EXPERIENCE — CONTINUED

Tata Consultancy Services — System Engineer

Jan 2020 – Jun 2021 | Gurugram, India

- Developed responsive enterprise interfaces using Bootstrap, Flexbox, HTML, CSS and JavaScript.
- Built reusable frontend modules including error notifications, pop-ups and validation components.
- Contributed to migration of legacy mainframe screens to Vue.js using TeleVue, reducing development effort.
- Supported CI/CD deployments through Azure DevOps.
- Received an On the Spot Team Award for contribution to project delivery.

Tata Consultancy Services — Assistant System Engineer

Jun 2017 – Dec 2019 | Pune, India

- Developed enterprise client applications using Angular 4+, JavaScript, HTML and CSS.
- Integrated frontend applications with REST APIs.
- Implemented unit testing using Jasmine/Karma, achieving 80%+ test coverage.
- Developed reusable UI components and supported defect resolution and application maintenance.

SELECTED REACT PROJECTS

Netflix Clone — React.js Project

|

- Built a responsive React.js application integrating the TMDB API for dynamic movie data.
- Implemented React Router, Firebase authentication and responsive component architecture.
- Deployed the application using Vercel.

Live: <https://netflix-gpt-gilt-nu.vercel.app/> | GitHub: <https://github.com/fareha0402/netflix-gpt>

Food Ordering Application — React.js Project

|

- Developed a React.js food ordering application with menu API integration, cart management and responsive mobile-first UI.
- Implemented reusable React components and real-time UI updates.

EDUCATION

B.E. – Electronics & Telecommunication — Bhilai Institute of Technology, Durg | 84.64% | 2016

Senior Secondary — Delhi Public School, Bhilai (CBSE) | 90.6% | 2012

Secondary — Delhi Public School, Bhilai (CBSE) | CGPA 9.8 | 2010

CERTIFICATION

General Management Certification — IIM Indore

AWARDS & RECOGNITION

- Special Initiative Award — 2026
- On the Spot Team Award — 2025
- Best Team Award — 2025
